Imagine The Future

When I first went through the library doors I felt the excitement rush through me.

I thought this could change millions of lives. Books are a magical journey that could take you anywhere. I thought it would be so much more, but maybe one day...

Also an amazing and calm café to read and have a drink. Sit on lovely bean bags and comfy hammocks and chairs, with plants hanging from the ceiling.

What I was imagining was the same but more books and art on the walls to inspire people to create.
