

# "NATURE ALL AROUND US" ART TRAIL

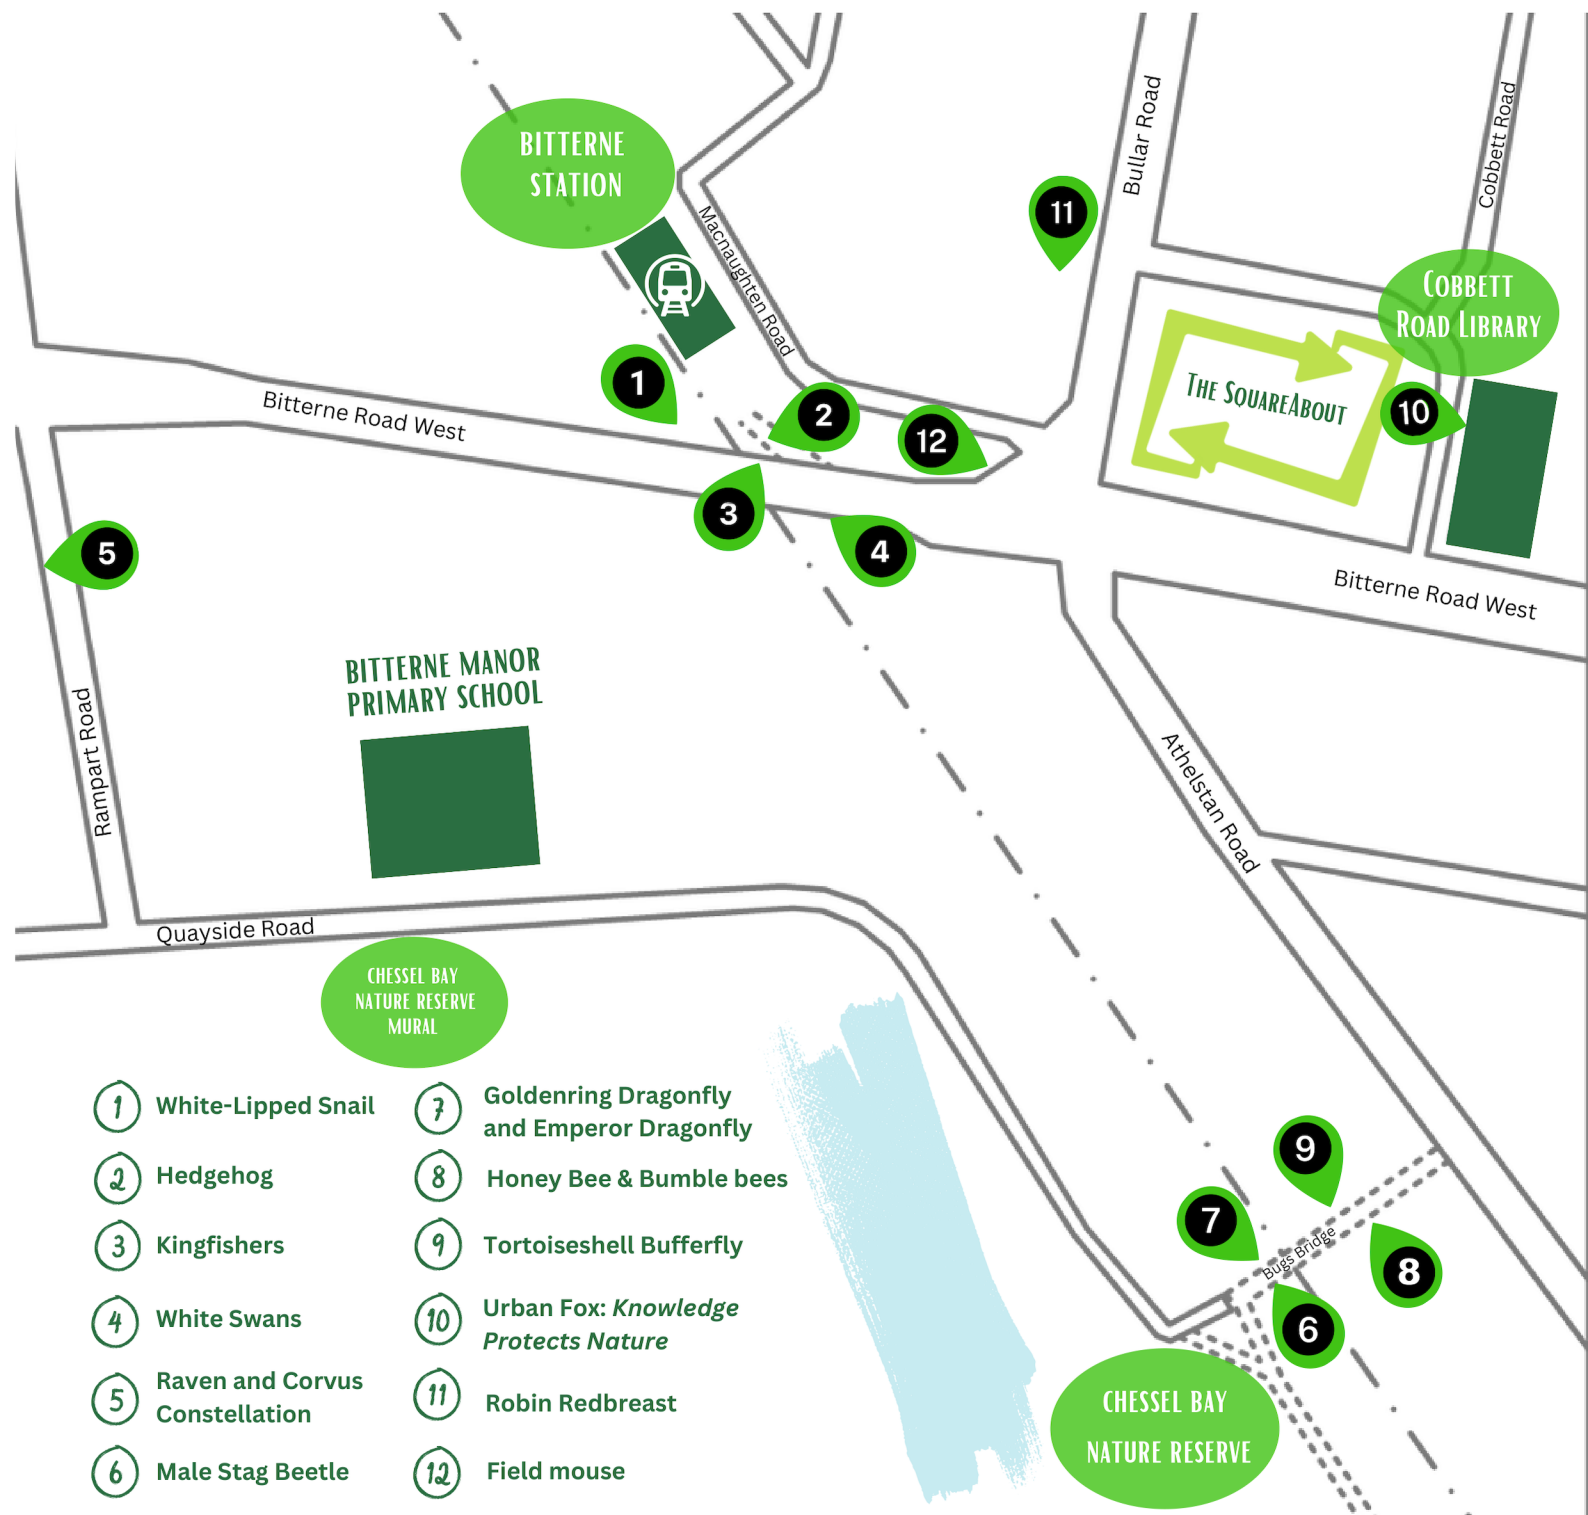

Funded by **SWR Customer and Communities Improvement Fund 2023/24** and led by **Friends of Bitterne Station**, "Nature All Around Us" is an art trail featuring 12 colourful murals by artist **Joanna Rose Tidey** representing some of our amazing local wildlife, based on photographs by local people.

The local community also contributed by sponsoring **butterflies** (on the wall by mural 8) to protect the artworks with anti-graffiti paint.

Mural 10, completed in partnership with **Friends of Cobbett Road Library** highlights the importance of knowledge (and books) in helping us protect and care for nature and celebrates the work of **Chris Packham**.

The artworks are located along a circular walk starting from Bitterne Station. The whole walk takes approx. 25 minutes (1.0 mile).
